## **Annex-A**

### **Terms of Reference of Advocacy Forum Dairy Science Park**

1. The Advocacy Forum would be hosted by Dairy Science Park and the Panels of Experts/local and international linkages, would be provided to the Forum.
2. Meetings of the Forum would be held on quarterly basis.
3. The issues faced by the milk and meat shops/processing factories, regarding price fixation and punishing/sealing of the facilities by government agencies, would be considered and way out would be suggested for implementation like implementation of SOPs, quality control analysis/certification and category-based pricing.
4. SOPs would be developed for implementation at milk and meat shops and processing facilities, protecting the environment and public health.
5. A system would be devised for quality control inspection of the livestock farms, food processing and marketing facilities.
6. Training facilities/kits would be arranged for personal hygiene and food safety of the workers of livestock/poultry farms, processing and marketing facilities.
7. Sharia compliance of the food produced at these facilities and open market would be monitored.
8. Legislation would be worked out through provincial and national assemblies, for protecting interests of the stakeholders and for boosting generation of decent employment and exportable surpluses across food value chain.
9. Establishment of an Endowment Fund for entrepreneurship development through seed money from the Government of Khyber Pakhtunkhwa and its enhancement through other sources.
10. Assisting the public sector organizations in achieving their sectoral goals through participatory approaches.
