Subject: Invitation to participate in the Panel Discussion on Dairy Science Park Egypt.

Assalamoalikum.

I am pleased to invite you to participate in the Panel Discussion on the replication of the Dairy Science Park (DSP) model in Egypt during the International Conference and Exhibition for Livestock Development and Food Security, to be held from 20–22 July 2026 at the Agricultural Research Center (ARC), Giza, Egypt.

A follow-up visit to Cairo University is also planned to engage key stakeholders across the livestock value chain and explore opportunities for establishing Dairy Science Park Egypt. The DSP model brings stakeholders together through productive collaboration, with a shared vision of creating decent employment and generating export-ready surpluses.

Your participation would greatly enrich the consultative process and contribute to developing a practical roadmap for establishing Dairy Science Park Egypt by integrating innovation, entrepreneurship, and value chain development into the proposed model. Background information on the Dairy Science Park initiative is available on our website for your kind reference.

Sincerely,

(Prof. Muhammad Subhan Qureshi)

13 July 2026

CC:

1. Dr Abdur Rahman Ilyas, Advisor to President ARC Giza
2. Prof Saber Mohamed Abd-Allah, Focal Point DSP Egypt Chapter, Beni Suef University
3. Mr Kamran Akram Khan, Secretary DSP Peshawar
